

Lexington KY Premiere Pond & Water Garden Resource

H2O Designs Inc

Beneficial Bacteria for Ponds/Liquid

\$12.98 \$11.68

You Save: 10.00%

Aquascape Beneficial Bacteria contains 8 pure strains of concentrated beneficial bacteria, including PSB bacteria and enzymes. This combination of natural cleaners helps to maintain a strong biological balance in your pond. Because ornamental water gardens are enclosed ecosystems, sometimes factors like fish load, uneaten fish food, organics such as leaves, sludge and unwanted debris may disrupt the balance. Aquascape Beneficial Bacteria maintains a strong biological balance; providing clean, clear and healthy water conditions. PSB (Photo Synthetic Bacteria) help quickly clear pond water by clumping fine debris and allowing it to settle.

250 ml/8.5 oz treats up to 5,000 gallons. One pump per 100 gallons.

500 ml/16.9 oz treats up to 10,000 gallons. One pump per 100 gallons.

1 Ltr/33.8 oz treats up to 20,000 gallons. One pump per 100 gallons.

4 Ltr/1.1 gal treats up to 80,000 gallons. One pump per 500 gallons.
